

Murali Madevan

Fresher | Machine Learning Engineer | Python Developer

Bengaluru, Karnataka, India

muralimadevan82@gmail.com | github.com/Murali-Madevan

PROFESSIONAL SUMMARY

Fresher ML engineer with 6 months of internship experience at Test Yantra. Skilled in Python, FastAPI, TensorFlow, NLP, and building AI-powered web applications. Strong project portfolio in deep learning, resume analysis, and production-style backend development.

EXPERIENCE

- Test Yantra Software Solutions | Intern (6 Months) | Bengaluru
Software development internship with focus on Python, AI/ML workflows, Git, and agile delivery.
- Academic & Personal Projects
Built AI Resume Matcher (FastAPI, Docker, CI/CD) and Skin Cancer Prediction (Flask, TensorFlow).

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML/CSS
ML/AI: TensorFlow, scikit-learn, NLP, Deep Learning, Gemini API
Backend: FastAPI, Flask, REST APIs, Pydantic
Tools: Git, GitHub Actions, Docker, MySQL, Streamlit

PROJECTS

- AI Resume Matcher: NLP scoring, skill-gap analysis, Gemini integration, Docker & CI/CD
- Skin Cancer Prediction: CNN-based detection portal with Flask and MySQL
- Personal Portfolio: Responsive GitHub Pages site (HTML, CSS, JavaScript)

ACHIEVEMENTS

- Research publication (IJRASET, 2025) on skin cancer prediction using deep learning
- Smart India Hackathon participant (2023)
- Production-grade refactor of AI Resume Matcher with tests and documentation
